

Here is the latest news on April 26, 2024!

On Thursday April 25, 2024 we had a hearing with the DELAWARE-MUNCIE METROPOLITAN BOARD OF ZONING APPEALS for the purpose of getting a variance for our 1600 15th St, 1601 15th St and our 2101 S Acorn Ave Properties so we can add a new storage building to the Acorn property and conduct the ICoMusic Foundation BIZ in the residential neighborhood.

The board was extremely nice, easy to work with and we were approved for the variance.

Our next step will be when we get the paperwork will be to meet with the county planning office to set up where the new building can go on the property at Acorn.

With the variance approval we will be able to start promoting the foundation, working with local teachers, NonProfits and community leaders to bring more music to the young people of Muncie, the state of Indiana and the US.

I will continue to update you with our newspaper now that we can really start working to help young people play music.
