

Senior Programs

An illustration of an acoustic guitar, shown from a three-quarter perspective, positioned between the words 'Senior' and 'Programs'.

Since I am a senior (still young at heart) I felt it would be nice to have music programs for our seniors.

Now it is not likely seniors will want to become the next Kenny G so we are offering things like classes and videos in playing the ukulele, guitar or recorder so they can play along with their grand kids.

These instruments will be given to the seniors at not cost but since many seniors still have a little money they can make a donation t the foundation if they choose.

I am personally thinking about taking up the ukulele so I can tinker in music. My hands are so bad now I can no longer play the clarinet or saxophone. My other home is the harmonica. No finger action needed!

Music can be fun, help keep our minds doing new things, help u get out of the house and meet people, they to enjoy the life we have left!
